Art Unit: 2635

1. This Office action is in response to the election of invention filed September 14, 2004. Claims 1-32 are pending. Claims 17-23 and 28-32 have been withdrawn from consideration because they are directed toward a non-elected invention. The non-elected claims have been canceled via Examiner's amendment because there are no outstanding issues.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Please cancel claims 17-23 and 28-32.

3. Claims 1-16 and 24-27 are allowed.

4. The following is an examiner's statement of reasons for allowance: the claims are directed toward a digitizer pad or a housing with a shaped feature formed on the pad or housing that has one or more contact points that generates a signal upon contact with the point(s). Such a combination is not taught or suggested by the prior art of record. The shaped feature has been defined in the specification. A digitizer pad may generate signals in response to contact, but the surface does not include a deflectable shaped feature because the surface is flat or texturized.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
